## **DETAILED ACTION**

### ***Response to Arguments***

Applicant's arguments filed 13 January 2006 have been fully considered but they are not persuasive.

In response to Applicant's argument that 'Applicant fails to see where Recanti or any of the references cited by the Examiner shows a drop falling within a recess as recited in claim 7' (see Remarks page 7), see the discussion below with respect to the rejected claims.

### ***Specification***

The title has been changed to "Aseptic Eyedropper Dispensing Attachment and Method for Use."

### ***Double Patenting***

Claims 7-10 are provisionally rejected under the judicially created doctrine of double patenting over claims 12-15 of copending Application No. 11/099,322 as discussed in the previous Office Action.

### ***Claim Language Interpretation***

The term 'recess' is given its broadest reasonable interpretation consistent with the specification of 'a small space or hollow' (Oxford online dictionary) or 'an indentation' (Merriam-Webster online dictionary).

### ***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

1. Claims 7-19 are rejected under 35 U.S.C. 102(e) as being anticipated by 35

U.S.C. 102(e) as being anticipated by Recanati (US 6,736,802; herein 'Recanati').

Recanati discloses a method for dispensing drops into a patient's eye, said method comprising: the user resting stem portions/cross member 18, 23 to either side of the nose 29 with the nose being used to steady the eye drop applicator with end portions 20,25 of stem portions/recesses 18, 23 being positioned over the user's eyes 28; the user then directs/aligns container 11 such that eye drop solution is dispensed and dropped from the container nozzle and through an inner wall of recesses 18, 23 through the open ends 22,27 of stem portions 20,25 and into the corner and other portions of the user's eyes (col. 2, ll. 66-col. 3, line 6, figures 1-4).

### ***Conclusion***

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire **THREE MONTHS** from the mailing date of this action. In the event a first reply is filed within **TWO MONTHS** of the mailing date of this final action and the advisory action is not

Art Unit: 3761

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
